Career Objective

Conscientious Full Stack Web Developer skilled in HTML, CSS, JavaScript, Python, and Django. Proficient in building responsive, user-focused web applications with solid knowledge of frontend, backend, APIs, and databases. Seeking to apply technical skills and a detail-oriented approach in a dynamic development team.

Technical Skills

Frontend: HTML, CSS, JavaScript, React.js, Tailwind CSS

Backend: Python, Django

Database: MySQL, MongoDB

Version Control: Git, GitHub

Other Tools: VS Code, Postman,

Projects

E-Commerce Website (91Mobiles):

This is a Django-based e-commerce website project. It allows users to register, browse phones by category, add products to the cart, and manage profiles.

Tech Stack: Django, Python, HTML, CSS, Bootstrap, jQuery, SQLite.

Role: Full Stack Developer

Key Features:

- User registration, login, and profile management using Django's built-in authentication system.
- Dynamic product listing with sale prices and category filters.
- AJAX-powered "Add to Cart" functionality for a smooth user experience.
- Admin panel for managing categories, products, and user data.
- Responsive UI built with Bootstrap and styled using custom CSS.
- Django messages framework for form success and error feedback.
- [GitHub Repo](#)

My Portfolio:

Developed a responsive and interactive personal portfolio website to showcase projects and skills using modern frontend and backend technologies.

Tech stack: HTML, CSS, Tailwind CSS, React.js+Vite, Email.js, emoji-picker-react, JavaScript.

Role: Frontend Developer

Key Highlights:

- Built with React + Vite for optimal performance and fast loading.
- Designed a modern SaaS-style UI with Tailwind CSS and a glass-effect navbar.
- Smooth animations, mobile navigation (hamburger menu), and section-based layout.
- Integrated contact form with Email.js and real-time emoji support.
- Connected LinkedIn, GitHub, WhatsApp, Instagram, and Email for easy communication.
- [Live Site](#)
